Printing a Photo or Image

There may be instances in which a photo or image needs to be printed. The steps below describe the process for printing photos or wounds/burns.

1. Begin on the MultiMedia Manager tab on the Menu in PowerChart
2. Right click on the image and hover over Show
3. Then click Default Viewer
4. Click Print, then click Print again
1. Verify the *printer* is correct

2. Click the **5 x 7 image** size

3. Click **Print**

☐ Add patient label to the bottom of the image
